Warren Commission on Assassination
Washington. D. C.

Honorable Gentlemen.

We strongly protest the placing of Norman Redlich as a high official on the Warren Commission investigating the assassination of President Kennedy. He is a known member of a marxist front - The Emergency Civil Liberties Committee. Oswald, the alleged assassin was a marxist - what a coincidence!

The voters in November will make known their aversion to such tactics.

Respectfully,
Pete M. Fox (Mrs. John P. Fox)
